

SecuReveal

The secure, internet-based whistleblowing system for your company

SecuReveal

To ensure active compliance management, you need a reliable whistleblowing system where data security and confidentiality have top priority

- ✓ **SecuReveal** offers the highest standards of data security with ISO 27001 certified data centres
- ✓ **SecuReveal** is adapted to your organisation's individual compliance code. It only allows messages that meet your guidelines
- ✓ **SecuReveal** is user-friendly
- ✓ **SecuReveal** allows a direct, anonymous communication between whistleblower and compliance officer
- ✓ **SecuReveal** is multilingual and suitable for use in international corporations
- ✓ **Data** is stored in the EU
- ✓ **SecuReveal** is a software-as-a-service solution. It is immediately executable with minimal implementation
- ✓ **Project management** allows case-related and system-secured communication and processing of information according to specific cases

SecuReveal

Your company's success

Your clients and customers trust you with their success, and your employees trust you to keep the workplace open and honest.

Your stakeholders expect you to manage risk and conform to the letter of the law. By taking steps to ensure your credibility, you safeguard your reputation and the future of your business.

Protect it with SecuReveal

- ✓ Company-specific software
- ✓ Self-contained system for internal communication and data exchange independent of company IT
- ✓ Adaptation to corporate design, compliance code and code of conduct
- ✓ Access only for compliance officers or the equivalent
- ✓ Online reporting 24/7
- ✓ Prevention of criminal prosecution, damage to reputation and financial loss
- ✓ "One-stop-shop" - concept – expertise of Wolf Theiss lawyers in data protection and employment related issues

SecuReveal

Compliance officers confirm positive impact

Anonymous reporting of compliance violations raises awareness and ensures an appropriate reaction by the management – employees regard this as fair.

Training and clear communication within the company creates awareness of compliance issues. The whistleblower software allows and facilitates compliance.

SecuReveal

Public Interface: for whistleblowers

SecuReveal provides highest anonymity.
The whistleblower is not traceable and
thus remains protected.

Whistleblowers create reports that meet
your predefined compliance guidelines.

SecuReveal

Compliance Cockpit: for compliance officers

SecuReveal documents incoming reports in a clear format. Each report can be individually assigned to the responsible compliance officer.

The secured chat function allows a dialog between whistleblower and compliance officer.

You can rely on RBS Responsible Business Solutions GmbH to help you design an active compliance management system.

We are specialized in supporting companies in all aspects of compliance management.

SecuReveal is your software-based whistleblowing system that meets the highest standards of cost-efficiency and technology. Violations of company compliance codes can be easily reported, securely handled and solved by the company.

As a subsidiary of Wolf Theiss Attorneys at Law, we offer international legal expertise. Our lawyers can support you in all legal matters relating to compliance.
